We know that making the decision to move into residential care can be a difficult and emotional one for both the person involved and their family.

We believe passionately that residential care can be a positive and enjoyable experience and that is why we do all we can to make the move as easy and comforting as possible.

“He loved his meals, his cleaning ladies were always lovely to him - nothing too much trouble. Brian - it goes without saying, you are a ‘brick’. Writing this makes me realise how I’m going to miss you all so much.”

Daughter of Resident

Agincare

Caring in Your Community

“Very fine place. Organised and well run. All that live here are happy. We all socialise, we are like a big family. I’m very proud to live here. I don’t think there could be anywhere better”
Current resident.

Making residential care a positive and enjoyable experience

Here at Edgehill Care Home we offer a happy and relaxing environment that can provide you with peace of mind, security, personalised care, support and stimulation.

We aim to strike the right balance between caring and supporting you as an individual with all the benefits of living in a community.

We will take the time to get to know you as an individual through comprehensive needs assessments but, as importantly, by simply chatting with you. By gradually building a picture of you – your likes and dislikes, background, what is important to you, your interests etc – we can tailor care and support that is centred around your needs.

We know the importance of good nutrition in helping to maintain health and wellbeing. Mealtimes at Edgehill are more than simply times to eat, they are opportunities to enjoy the company of fellow residents, friends and family.

Menus are developed in consultation with residents enabling us to provide attractive nutritious food that complements your needs with all food being freshly prepared and cooked on site for you to enjoy.

All our staff are highly trained and experienced in providing care in a sensitive way that respects a person’s privacy and dignity. In particular, each one is skilled in caring for people suffering from dementia. We always see the person not the condition!

Each of our residents has access to facilities that maintain both body and soul including GPs, community nurses, hairdresser, chiropodist and access to religious worship.

We never forget that this is your home and that we are merely guests (hopefully welcome ones!) in it.

For further information please ring our Manager, on 01793 641189 to arrange a visit.
