

# Home Care and Support

Living independently at home is something most of us would like to do for as long as possible. However, there are times when we all need a little support with daily living tasks such as shopping or washing and this is where Agincare can help.

## **What are the benefits of Agincare home care?**

- Help for everyday tasks, social activities or personal care
- You are at the centre of your own care and support at all times
- 24/7 support from a dedicated and highly trained team
- Support from local people, who know your area

## How can we help?

The best person to know what support you need to remain as independent as possible in your own home is you. That is why everything we do is designed around your needs and goals. These can be relatively simple like help with shopping through to high dependency 24 hour care.

## Why Agincare?

97% of people using our service say they are treated with politeness and respect by their Care Workers. We are a family owned and operated company that has been providing help for people to live independently in their own homes for over 20 years. Our original guiding principles have served us well and still hold true today - treating people with the same care, kindness and dignity that we would want one of our loved ones to be treated.

## What does it all cost

Cheap headline figures can be attractive but it is the small print that can hurt. We believe you should know from the outset what you will be paying and that is why once we have agreed the support you need we will tell you how much we charge. There are no hidden charges!

## What do I do next?

If you think you might need a little help to remain living independently at home please do call us on the telephone number below.
