Rochester Care Home is a single storey, purpose built home that is dedicated to providing the highest possible standard of care for it's residents.

Close to the amenities of Rochester and Chatham, this long established care home is at the heart of its local community. Modern facilities, a highly trained staff group, home cooked food and a choice of gardens and courtyards for outdoor use have given this home its outstanding reputation.

Over 25 years of local care provision and staffing knowledge is now combined with Agincare's 25 years of experience from services across the country. Working together to ensure long term, quality services for the local community.

“My husband has settled well in the home, which makes things a lot easier for myself and the rest of my family”. Wife of resident

*Treating people as individuals and delivering truly person centred care is central to everything we do.*

Rochester Care Home forms part of the Robert Bean Care Centre, which has been a long established care home under the management of Medway Council. The home transferred to Agincare's management in September 2013, along with the highly experienced and skilled staff team. This exciting combination of the local, longstanding and trusted staff group and the innovation and national experience of Agincare has already led to positive changes in the home's provision to the local community.

Refurbishment of the home commences in December 2013 and we will be increasing in registered bed places to 40, to make new bedrooms, mostly with en-suite facilities, available to private pay residents. Further enhancements to the existing accommodation will continue through the coming year.

The home operates a unitised approach, allowing for smaller homely areas and differing levels of need to be accommodated within a larger, more spacious environment. Through training, and many years experience, our staff know how to respond and can help each and every one of our residents to feel comfortable, whilst gently stimulating their daily living skills with age related activities.

In every one of Agincare's 12 care homes across the country, we strive to provide a warm and friendly environment for all residents, with truly person-centred care delivery. We look forward to Rochester Care Home, and the Robert Bean Care Centre, becoming a thriving community hub for the locality, with an increasing range of service provision.
