Dear Cheriton Care Home,

The Care Quality Commission is not routinely inspecting services during the COVID-19 pandemic. We are maintaining contact with providers through existing monitoring arrangements and engagement and support calls covering four assessment areas:

- Safe Care and Treatment
- Staffing arrangements
- Protection from Abuse
- Assurance Processes, Monitoring and Risk Management

This Summary Record outlines what we found during the engagement and support call shown above, using standard sentences and an overall summary.

We have assessed that you are managing the impact of the COVID-19 pandemic at the above service. The overall summary includes information about the internal and external stresses you are currently experiencing, how they are being managed, and sources of support that are available.

Emergency Support Framework calls and other monitoring activity are not inspections. Summary Records are not inspection reports. Summary Records are not published on our website.

### Overall summary

Our call covered all four areas. The manager was engaging and open throughout the conversation. They provided examples of good oversight and responding to the challenges related to the outbreak at the home. All systems are working well including internal reporting, auditing and liaison with external agencies such as the local quality improvement team, health professionals and CQC. We discussed people's and relative's

experiences. Different ways of maintaining people and relatives contact has been used. Discussed safeguarding and any concerns and complaint and the outcomes. We also discussed exploring support networks for services that have or have had Covid 19 so they can share their experiences. Inspector will follow this up. Weekly support calls to continue at the moment.
