Dear Gainsborough Care Home,

The Care Quality Commission is not routinely inspecting services during the COVID-19 pandemic. We are maintaining contact with providers through existing monitoring arrangements and engagement and support calls covering four assessment areas:

- Safe Care and Treatment
- Staffing arrangements
- Protection from Abuse
- Assurance Processes, Monitoring and Risk Management

This Summary Record outlines what we found during the engagement and support call shown above, using standard sentences and an overall summary.

We have assessed that you are managing the impact of the COVID-19 pandemic at the above service. The overall summary includes information about the internal and external stresses you are currently experiencing, how they are being managed, and sources of support that are available.

Emergency Support Framework calls and other monitoring activity are not inspections. Summary Records are not inspection reports. Summary Records are not published on our website.

Assessment Area 1

Safe care and treatment

1.1 Had risks related to infection prevention and control, including in relation to COVID-19, been assessed and managed?

Yes Staff were able to raise concerns and were supported to speak up during the pandemic.

4.4 Had care and treatment provided to people being sufficiently recorded during the Covid-19 pandemic?

Yes Care and treatment provided to people is being sufficiently recorded during the Covid-19 pandemic.

4.5 Had the provider been able to work effectively with system partners when care and treatment is commissioned, shared or transferred?

Yes Working arrangements and information sharing with system partners during the Covid-19 pandemic are effective.

Overall summary

Our call covered all four required areas. At the time of the call there were no Covid-19 positive cases at the home. The registered manager advised there was an improved emphasis on cleaning and infection prevention and control since the previous inspection. This included an increased compliment of domestic staff and an updated IPC policy. There had been no issues securing PPE. The home had proactively identified two wings

of the home to be used if there was an outbreak. The home's contingency plan had been updated to include Covid-19. The home had not experienced any issues with their medicines stock or securing supplies for people. The registered manager spoke positively about the support they had received from health professionals including GPs and district nurses. Competency assessments, supervision and reflective practice sessions were continuing to ensure staff practiced safely and felt supported. Business as usual risk assessments have not been affected. There have been no issues with staffing levels during the pandemic. The level of staffing had enabled people to receive more quality time and reassurance. Social media is being used to help people stay in contact with those important to them. The registered manager advised that quality monitoring systems and record keeping had not been affected during the pandemic. The registered manager said they felt supported by provider management and were also receiving frequent contact from the local authority contracts team. This gave them an opportunity to talk through any concerns or worries they had. No support needs were identified at this time.
